TYPHOON®

DRYSUITS | DRY BAGS | ACCESSORIES

THE WORLD'S **LARGEST MANUFACTURER** OF DRYSUITS

Since it's formation in 1947 Typhoon have developed a reputation for providing exceptionally high quality marine products. Typhoon's impressive list of firsts include:

1950's First to manufacture wetsuits in the UK.

1970's First to manufacture tri-laminate drysuits from Nylon 6.6 (still one of the best drysuit fabrics available today).

1990's First to introduce CLO-Tex fabric, revolutionising the comfort and usability of drysuits.

2000's First to launch an electrically heated 'smart fabric' garment - a "Millennium Awarded" product.

Research and development continues as we constantly search for new fabrics and production methods.

We are proud to supply such customers as the Environment Agency, Coastguard, Fire Brigades, Police Services, Local Authorities and specialised SAR groups, in fact anybody who works in or near water both within the UK and Worldwide.

By utilising our expertise as the worlds largest and longest established manufacturer we can offer you solutions as unique as your requirements, whether it be as simple as adding your logo to a suit/lifejacket or designing a suit specifically for your application.

Working with Typhoon could not be easier. Our extensive product range, stock holding and certifications by SOLAS, EASA, ISO 9001, DOT and CE you can be assured that our products are manufactured to the most stringent standards.

Typhoon continually strive to bring you the most technically advanced products. For this reason some products featured in this brochure may change in specification. For up to date information please visit www.typhoon-int.co.uk

If you require details of your local agent please contact Typhoon's sales department on +44 (0)1642 486 104 or email: sales@typhoon-int.co.uk

BESPOKE SUITS

Typhoon fully understand that off the shelf suits may not meet your requirements. Our highly experienced design team can discuss your unique requirements in complete confidence.

Our team can advise not only on the design of the suit but can also offer advice on varied pocket configurations and alternative fabrics that can be mixed for the terrain and environments that your people will be working in. The suit pictured shows differing configurations of pockets and other features.

FEATURES

- Latex or Neoprene seals
- Numerous pocket options
- Relief zip options
- Aqualseal or BDM zip
- Reinforced kevlar/PU seat, elbows & knees
- Latex, fabric or neoprene socks. Fixed thermic and rock boots also available
- Self don front entry, bib & other entry options also available
- Various fabrics in different colours including breathable and texturised polyester for harder wearing applications
- Inflation & deflation valves bespoke to customers requirements
- Various hood options

SIZES

XS, S, SM, M, MB, LM, L, LB, XL, XXL, Made to measure

Roll-down Neoprene hood

Optional pockets

Plastic Aquaseal zip

120153 SOLAS APPROVED WOSS

The constant wear drysuit for marine working environments. Designed specifically for long periods of use in the most challenging environments. Certification viewable on website. SOLAS WOSS - Quadply top and Clotex bottom (stocked)

FEATURES

- SOLAS APPROVED WOSS (integrated mitts, hood and fabric socks)
- Diagonal self-don zip
- PU reinforced knees and seat
- Double taped crotch
- Latex neck and cuff seals
- Removable internal braces
- Elasticated waist
- Flat pocket
- Reflective cuff tape

COLOUR

- Yellow and Black

SIZES

XS, S, SM, M, MB, LM, L, LB, XL, XXL, XXXL

ALTERNATIVE WOSS RANGE

120111 - BREATHABLE - Quadply top yellow and Clotex bottom black (XS, S, SM, M, LM, L, LB, XL, XXL, XXXL & MTM)

120102 - PATROLMANS - Quadply top and Clotex bottom (ALL BLACK) Made to order. Ideal for law enforcement / government agency applications (XS, S, SM, M, MB, LM, L, LB, XL, XXL, & MTM)

120105 - NYLON WOSS - N100N (made to order only) Harder wearing suit for more demanding tasks. Yellow top and black bottom. (XS, S, SM, M, MB, LM, L, LB, XL, XXL, XXXL & MTM)

All of the above available with Glide skin (Neoprene) neck and cuff seals as well as various footwear.

Fixed bellows pocket

Knee protection

SOLAS WOSS integrated hood and collar

SOLAS approved reflective tape (only on SOLAS approved model)

120139 RESCUE AND RESPONSE DRYSUIT

An easy don rescue suit, ideal for fast response / rescue swimming applications or swift water rescue.

PRINCIPAL FABRIC

A highly visible, breathable quadply top. Trilaminate Clotex bottoms

FEATURES

- Nylon acrylic Kneepads with Neoprene padding
- PU seat reinforcement
- Neoprene glide skin neck & cuff seals for added comfort, warmth and durability
- Internal braces
- A fitted pocket on the right thigh
- Thermic neoprene boots provided as standard
- Front bib entry system that allows easy self-donning and does not hinder movement
- Reflective taping around the cuffs and ankles

COLOUR

Yellow and black

SIZES

XS, S, SM, M, LM, L, XL, XXL and Made to Measure

130212 HEAVY DUTY RESCUE SUIT

A heavy duty rescue suit designed for use in more demanding conditions. A valved option is available for diving.

PRINCIPAL FABRIC

Hardwearing polyester trilaminate material

FEATURES

- Nylon acrylic knee, padded seat & elbow reinforcement
- Neoprene neck and cuff seals for comfort, warmth and durability
- Removable internal braces
- Elasticated waist
- Reflective tape on cuff and ankles
- Self done
- Rescue logo
- Various footwear options available on request

COLOUR

- Orange

SIZES

S, SM, M, MB, LM, L, LB, XL, XXL and Made to Measure

278430 COXSWAIN SUIT

A two piece surface operations suit for Coxswain or Crewmen.

PRINCIPAL FEATURES

TOP

- Smock Top
- Glideskin neck/cuff
- Adjustable cuff covers
- Bungee cord waist adjustment
- Design enhances fabric breathability
- Sleeve pockets
- Reflective tape

TROUSERS

- Cordura overlay knee and seat seams
- Adjustable lower ankle
- Lower leg zips with storm flaps
- Relief zip with cover
- Adjustable braces with quick release buckle system
- Elasticated back waist
- Bungee cord chest adjustment

PRINCIPAL FABRICS

Quadply breathable trilaminate uses a high tech twin membrane to both push water away from the outside whilst pulling vapour through from the inside. This gives a combination of breathability and dryness.

COLOUR

- Black or Red

CONSTRUCTION

Stitched seams sealed internally with heat tape

SIZES

S, M, L, XL, XXL
Weight with suit in zipper pouch is 1.85 kilos (based on an XXL suit)

DIMENSIONS

Length 45cm,
Circumference 67cm.

WEIGHS JUST 1.85KG WHEN PACKED

Smock and trouser combo

Salopette

Cordura overlay knee and adjustable lower ankle

Lower leg zip with storm flap

275219 **RIB LADDER**

For Divers, Rescue Swimmers or any operator who need to climb into a Rib from the water. There is an easy way to climb into your inflatable, use the Typhoon Rib Ladder.

COLOUR

- Orange or Black

FEATURES

- Can be attached for use by single operator
- Helps protect tubes from wear and tear over entry area
- Fully adjustable to fit any size Rib
- Bottom rung on ladder is negatively buoyant for stability
- Deploys and stows quickly in compact roll up bag
- Improves safety
- Light sticks and beacons easily attached
- Weight 3.9kg
- Packed size 30 x 85 cm
- Unique patented design
- Grip tape ladder rungs

130248 FIRST RESPONDER SUIT

A quick self don stowable lightweight drysuit designed for rescue scenarios where the user does not require total water integrity. Suit is designed as a minimal use suit.

PRINCIPAL FABRIC

135g/mt² polyurethane coated nylon substrate with a fluorocarbon finish.

FEATURES

- Self donning straight plastic Aquaseal zip
- All seams stitched and heat taped
- Elasticated waist for comfort and flexibility
- Hi-vis neoprene hood with back face seal
- Latex conical cuff seals
- Latex socks on feet
- Reflective tape on hood and cuffs
- Packs into a small zipper pouch

DIMENSIONS (PACKED)

Length 25cm,
Circumference 50cm
Weight when packed: 1.1 kgs

COLOUR

- Red

SIZES

M, L, XL

WEIGHS JUST 1.1KG WHEN PACKED

200101 LIGHTWEIGHT THERMAL UNDERSUIT

An ideal first layer undersuit, to be worn in conjunction with other garments, or on its own when the environment is not so demanding. 100% polyester with a TOG rating of 1.

PRINCIPAL FABRICS

Polyester

COLOUR

- Black

SIZES

S, M, MB, L, LB, XL, XXL

200170 TWO PIECE 100G UNDERSUIT

A two piece 100g undersuit that can be worn as a one piece or as a separate jacket and trouser. Stretch ankle and cuffs provide a good fit and stop the fabric from bunching.

PRINICPAL FABRICS

- Fleece inner wicks moisture away from the body, 100g Thinsulate middle gives excellent thermal properties
- Vital organs protected by 200g thinsulate due to overlap of smock and salopette
- Breathable Ree-Tech outer allows moisture to escape Ree-Tech outer fabric is a tough rip stop nylon

COLOUR

- Black

SIZES

400610 SOLAS LIFE JACKET

The SOLAS 275N has been designed specifically for coastal, offshore and abandonment roles. Ergonomic shaping and features such a neoprene collar make sure the user is comfortable at all times reducing the chance of irritation, whilst the two independent urethane coated bladders ensure superior strength and durability.

- 600D Polyester with PU2 pack cloth.
- Two UML automatic inflators
- One Halkey Roberts Oral Inflator
- Rescue Light
- Buddy Line
- Signal Whistle
- SOLAS grade reflective tape
- Lifting Loop

Inspection window

400500 FLIGHT LIFE JACKET

The Typhoon Flight Lifejacket offers comfort and unrestricted movement. It has a slim profile and split front, which will allow full shoulder movement both when uninflated, and when inflated, enabling the user full unrestricted movement whether simply travelling as a passenger during helicopter transit, or during an emergency. The compact design also allows for full movement of the head, maintaining good forward and downward visibility even when wearing a helmet.

- Construction consists of two central lobes that will self right the wearer in less than 5 seconds.
- Tailored neck for optimal support to the head and neck whether conscious or unconscious.
- 275N Buoyancy provided by single chamber bladder, this can be inflated manually and topped up via oral tube.
- Cover Assembly manufactured from Waterproof Nylon.
- Crotch Strap provided as standard to prevent lifejacket riding up when swimming.
- Light, Whistle and reflective tape are provided to help attract location.
- Lifting becket for water extraction
- Sprayhood to prevent spray / splash from reaching users face.
- EASA Approved.

RACER LIFE JACKET RANGE

400170 **RED RACER PRO 150N WITH HARNESS**

400170 **FLAM RACER PRO 150N FLAME RETARDANT**

400102 **RED RACER PRO 275N WITH HARNESS**

The Racer pro is designed for constant wear for users encountering much wetter conditions. Incorporating quick secure chest clip, neoprene comfort collar. **IMPORTANT** feature is the Halkey Roberts Pro Firing mechanism. The jacket features a window in the outer cover (except Fire Retardant Model) allowing the dual indicator to be seen from outside the jacket making it easy to ensure that the lifejacket is armed and ready.

There are 2 bladder sizes available 275N and 150N for both offshore and inshore applications, available in Standard Nylon, PVC or Fire Retardant covers. Chest harness optional.

277105 ULTRASLIM LIFE JACKET (ZIPPED)
400400 SLIMFIT LIFE JACKET (VELCRO)

The slimfit general purpose life jacket is a compact life jacket with a range of various features. The slim cover is ergonomically shaped so that it is comfortable to wear when actively moving and has a mesh back panel/flat pocket for stowage of crotch strap.

It is available in 150N or 275N, automatic or manual, with or without optional extras. All versions have full CE approval to the relevant standards.

FEATURES / OPTIONS

- Compact and lightweight
- Automatic inflation
- Manual inflation option
- Harness including D-ring
- Crotch strap

COLOUR

- Black

THE 'MULE'

276115 'MULE' 150LTR BOW BAG

Designed to be mounted into RIB's and small boats.

PRINCIPAL FABRICS

Trilaminate Texturised Polyester

FEATURES

- Dry zip medium weight. With plastic zip outer cover.
- Kevlar Composite Material reinforcement on the top and base of bag.
- Load bearing webbing reinforcement on base of bag.
- 3 x Reinforced Webbing handles with security loop on each side and front of bag.
- Low Profile C7 Inflation / Deflation valves fitted to front and back of bag.
